## Space2groW looking for new team members

Announcement from Anab and Zeina for Space2groW....

We are offering workshops and personal counselings about family planning and women's\* health's issues for refugee women\* and their partners.

We are now looking for colleagues to make the team bigger. We want to offer more workshops and cover more cultural backgrounds & languages – We want more refugee women\*, more migrant women\*, more women\* from the communities to teach ourselves and each other on issues that are relevant for us.

Conducting workshops will be paid, but working with Space2groW does not earn money like a regular job. It is out of compassion and the love for our communities and for empowering each other that we chose to create this and that needs to be the basis for every team member to join in.

We encourage migrant women to join us and make the project be part of the community.

We are very urgently looking for Farsi speaking colleagues, but any African languages, Arabic and other languages are also very welcome.

Please email to both of the email addresses below if you are interested.
